

Watkins' Barn Timber Frame Exceptional Condition

Recently dismantled is this 48' x 50' barn which is in exceptional condition. The timber frame bents have 7" x 7" beams ready to be reassembled. Rarely do you find a complete structure so well maintained that all the bents are useable and in good shape.

This well maintained post and beam frame and original rafters is being offered for \$39,000.00 which does not include delivery or set up.

Benedict Antique Lumber and Stone would prefer to have these beams remain as a frame, simply stated because of their condition. We feel it would be a shame to cut them.

A third down will secure this timber frame for you, so tell us your interest and plans.

Thank you,
Benedict Antique Lumber and Stone
